

CONTOUR Chaffinch

Above ground, bath replacement with built in pipe duct, only 40mm high

A bath replacement, low level shower tray that can be cut to length on site to fit exactly into the space once occupied by a bath. Incorporating a drying area, this tray will fit comfortably between three walls and is supplied with an end plate to conceal the cut end of the tray. Optional ramps available to assist wheelchair access.

Optional ramp R02 shown above

Advantages

Only **40mm** high, a Chaffinch is the ideal low level replacement tray when a bath tub is no longer practical or functional. The corner waste position is situated to avoid joists. With the added advantage of a built in pipe work duct to one side of the tray, creating a void to conceal above ground plumbing.

- Step in shower tray only **40mm** high
- Optional unique ramp system assists wheelchair access
- Cut to length shower tray, incorporating drying area, can be cut from its original length of 1850mm to fit exactly into the space left by a bath. End plate supplied to conceal cut end of tray
- Suitable for wooden or solid floor situations
- Ramp R01, 800mm, or Ramp R02, 1850mm available as an optional accessory on request, see page 115
- Incorporating built in pipe duct for concealed plumbing
- Concealed wall fixing
- Lifetime guarantee
- Reinforced GRP construction
- Anti-slip surface for an assured underfoot grip
- Facility for top suction waste
- Manufactured in the UK
- Exclusively incorporates Microban® antibacterial protection
- Left or right hand available

Bath Replacement

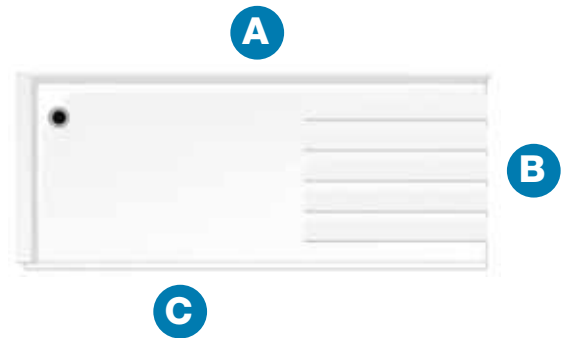

The Chaffinch has been designed as an ideal replacement to a bath tub where low entry is required. Can be cut to length by as much as 890mm from 1850mm down to 960mm to fit exactly in the space left by a bath.

Incorporating a tiling lip for that leak proof finish, which will also accommodate wall boards if desired. The tiling lip is also used to secure the shower tray to the wall.

A pipe work duct is built into one side of this tray to allow ease of fitting. The pipe duct creates a void behind the tray for concealing above ground plumbing.

Ramps R01 or R02 available as optional accessories on request to assist wheelchair access. See page 115 for more details.

| Tray | Cut to Length |
|-----------|--------------------|
| CHAFFINCH | From 1850 to 960mm |

| Tray Reference | Tray Size | | |
|----------------|-----------|-----|-----|
| | A | B | C |
| CHAF | 1850 | 750 | 920 |

Waste Options

Supplied as standard with a STW8B-95 50mm water seal gravity waste, see page 104 for more details.

UPSW-3-22 available if using in a waste pump situation see page 105 for more details.
