

CONTOUR Kestrel

Above ground, self supporting & only 35mm high

The Kestrel tray is the lowest in height within our range of low level shower trays. A Kestrel will require only the minimum amount of disruption and modification to a property and could also be recessed into the floor to provide level access.

Benefits

This type of self supporting shower tray can rest unsupported on top of the existing bathroom floor without having to be bedded down onto a sand and cement mix or similar. Easy to step in to at just **35mm** high, a Kestrel tray is not handed and is ideal for use in a left or right hand adaptation.

- Low entry point for easy step in, only **35mm** high
- Suitable for wooden or solid floor situations
- Can be recessed into the floor if required by 35mm for complete level access
- Self supporting, does not require bedding down onto a sand and cement mix
- Reinforced construction
- Lifetime guarantee
- Central waste position to allow trap to avoid joists
- Anti-slip surface for an assured underfoot grip
- Manufactured in the UK
- Exclusively incorporates Microban® antibacterial protection
- Tray not handed
