

CONTOUR Shower Doors

Standard or Made to Measure door options

Contour shower doors are carefully designed and manufactured specifically for the needs and requirements of the user. Practical and stylish, with contemporary fittings and re-designed rise & fall hinges and latches our attractive enclosures can be used by the whole family whilst still being easily accessible. All our enclosures are manufactured entirely in the UK from components that are **100% recyclable**.

All shower enclosures come with a **Lifetime Guarantee**, which is your assurance of quality for all Contour shower doors.

All doors, where practical, are supplied with a handle for ease of opening and closing. Coloured handles, coloured latches and coloured support poles can be requested, at no extra cost, to assist the visually impaired.

- Finished in a pleasing white powder coating as standard or a modern polished satin, *see Luxe Range opposite*
- Glazed with either decorative PET, unbreakable polypropylene or toughened glass, *see page 3*
- Vast range of shower doors to suit all bathrooms and shower trays. Can be retro-fitted in a wetroom or onto any shower tray with a 40mm flat perimeter
- Half height doors at 750mm, a preferred height for carers
- Re-designed rise and fall hinges for smooth, effortless door opening, even for those with a weakened grip
- Doors remain open whilst in the open position
- **NEW** 'flip over' latch to prevent door movement should a carer lean against them
- Magnetic door closing
- Shower doors have a compensator for final adjustment, upto 15mm, to allow for out of square walls. Infill section available to overcome pipework, *see opposite*
- High integrity door and glazing seals
- Made to measure shower doors are manufactured and delivered within **24 to 48 hours***
- **Lifetime guarantee**
- **Manufactured in the UK** from components that are recyclable

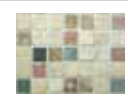

*Does not include deliveries to Ireland, Shower Cubicles or events beyond our control

Suitable for vinyl anti-slip flooring

Suitable for use with a shower tray

Suitable for tiled floors

Can be made to measure

We DO NOT approve the use of power showers with special needs shower doors or shower trays.

Proudly Made in the UK

Flip over latch

PET glazing

Corner block can be cut

Compensator infill section is 100mm in depth and can be modified for use where above ground pipework or pipe boxing is present.

LUXE RANGE

Polished silver satin doors for a long lasting and modern appearance. Luxe Range doors feature all the benefits from our easy access shower enclosures for any modern easy access bathroom adaptation.

Made to individual requirements Luxe Range doors will easily compliment our range of shower trays or wet floor formers.

Luxe doors can be glazed with either PET or toughened glass.

Option WF24LH, Luxe Range illustrated

PET is a material which has a high impact performance, as well as being recyclable and environmentally friendly. The products released during PET manufacture are merely water vapour, no aggressive or toxic smoke is produced.

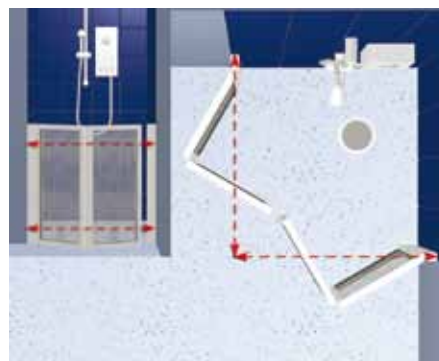

As we manufacture and assemble all shower doors in-house in the UK, we have complete control and flexibility to meet your requirements.

MADE TO MEASURE DOOR OPTIONS

Made to measure shower doors can be installed directly to a wet floor area or shower tray. From your specification and measurements a variety of practical door configurations are available.

Made to measure shower enclosures are manufactured and normally delivered within the UK mainland within **24 to 48** hours.

When measuring the area for your shower doors to fit, it is important that accurate dimensions are taken from tile face to tile face or to the proposed closed position of the doors.

Measure shower area

Made to measure doors also include an integrated corner block designed to be trimmed to overcome radiused floor coverings. The block can be cut at 10mm or 38mm radius.

Made to Measure & Luxe Doors

- Made to any practical size & configuration
- Supplied with curtain and curtain rail
- Suitable for wet floor area's & shower trays
- Lifetime guarantee

- Made to any practical size & configuration
- Supplied with curtain and curtain rails
- Suitable for wet floor area's
- Lifetime guarantee

CONTOUR Carerscreen®

Portable & convenient

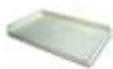

Carerscreen® is an easily portable alternative to a fixed shower enclosure. Compact and lightweight, Carerscreen® helps to keep the carer dry during assisted bathing, whilst the folding design allows for easy storage when not in use.

Fitted with robust handles to assist with positioning and for lifting, a Carerscreen® is easy to handle and use when a temporary shower enclosure is required. By removing the Carerscreen® when it is not in use, the shower area is then clear for other members of the household.

- A convenient option to a fixed shower enclosure.
- Easily portable, can be moved effortlessly from room to room.
- Assists in keeping the carer dry during bathing.
- Low screen height of 750mm (29½”), which is a preferred height for carers. Other screen heights available on request.
- Can be used in conjunction with a shower tray or alternatively, a tiled or wet floor area.
- Fold flat for compact storage.
- Available in four standard sizes, can be made to measure
- Lifetime guarantee
- Carrying bag not supplied.
- Not handed.

Suitable for vinyl anti-slip flooring

Suitable for use with a shower tray

Suitable for tiled floors

Can be made to measure

	Height	No. of Panels	Panel Width		Weight
			A	B

Taller screen height to keep the carer drier. *Not handed*

CS3

Wider screens are ideal for use with a mobile shower chair. *Not handed*

CS4

By incorporating more panels the screen can be closer to the user. *Not handed*

Proudly Made in the UK

CONTOUR Glass Screens

Freestanding, Reversible Glass Screens

Frameless glass screens will add a feeling of space and openness, giving you a luxurious and minimalist walk-in shower experience that's perfectly suited in any modern bathroom.

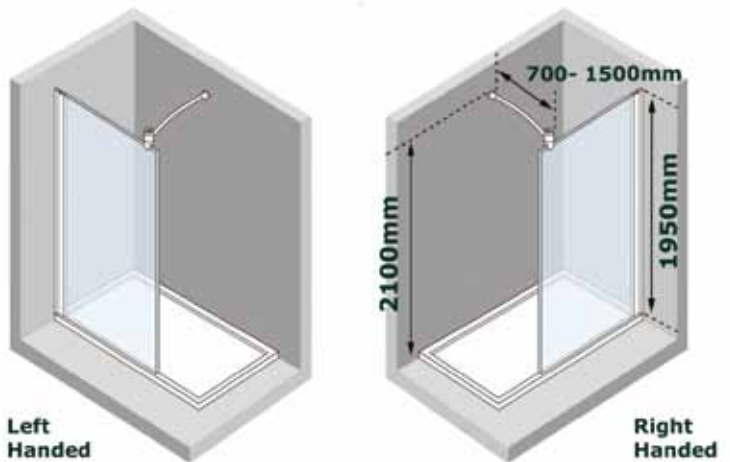

This style of glass screen can be installed directly onto most Contour shower trays which have a flat top perimeter. Alternatively, they can be combined with a tiled wetroom for the true walk-in feel.

1950mm x 6mm toughened Glass Screens use a support which secures the screen back to the wall. The wall support can be cut to length (700mm-1500mm) and completes the modern minimal appearance.

Reversible

The Glass screens are fully reversible for left or right hand installations.

- 6mm clear glass, EN 14428 tested
- 1950mm high (plus wall support)
- Silver aluminium frame
- 45° wall bracket available if you wish to add a return panel
- 30mm adjustment for out of true walls
- Glass available in 700mm, 800mm, 900mm, 1000mm, 1100mm and 1200mm widths
- Leading edge is finished in glass
- Installs directly onto all Contour shower trays and tiled wetfloor areas
- Bottom seal included but fitting optional
- Chrome bottom fixing support foot included but fitting optional
- Wall support supplied as standard
- Not handed
- 10 year guarantee
