

# CONTOUR Puffin

## Above ground, with a larger shower area, and only 40mm high

Low entry, 40mm high surface mounted shower tray suitable for installation on wooden or concrete floors, providing easy access. Central waste position situated to avoid joists.

### Features

The Puffin has been designed with a larger showering area providing the user with more showering space. Built in pipe ducts to three sides of this shower tray create an area capable of concealing above ground pipework. Optional ramp available to guarantee wheelchair access.

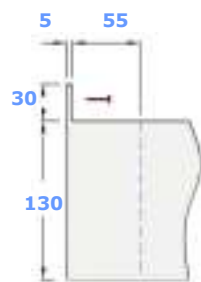

- Low entry point for easy step in, only 40mm high
- Incorporating built in pipe duct for concealed plumbing
- Ramp R01 available on request as an optional accessory to guarantee wheelchair access
- Suitable for wooden or solid floor situations
- Concealed wall fixing
- 25 year guarantee
- Reinforced GRP construction
- Anti-slip surface for an assured underfoot grip
- Central waste position
- Facility for top suction waste
- Left or right hand available

Void for concealed plumbing

Tiling lip

Built in pipe duct

Ramp access

## Low Entry Point

The Puffin is the ideal solution when a larger showering area is required. Easy to step into at only 40mm high, a Puffin will rest on top of the existing bathroom floor.

Pipe work ducts are built into both sides of this tray to allow ease of fitting. The pipe ducts create a void behind the tray for concealing above ground plumbing.

Incorporating a tiling lip for that leak proof finish, which will also accommodate wall boards if desired. The tiling lip is also used to secure the shower tray to the wall.

The use of an optional ramp will allow for wheelchair access. See page 104 for more details.
