

**SATIN STRIPED****PLAIN CONTRACT****NEW ANTIBACTERIAL SHOWER CURTAINS**

- White, weighted 4oz, polyester curtains.
- 50g weighted bottom seam stops a curtain from riding up whilst the shower is in use.
- Rust proof, chrome nickel plated eyelets.
- 1" hem to each curtain edge, open at the top & bottom to accommodate our Captive Curtain system, *see below*.
- Antibacterial treatment inhibits the growth of bacteria & fungi to eliminate unpleasant smells & textile staining.
- 1400mm drop curtain can be used where a shower seat is sited, this will finish high enough to avoid the seats brackets.
- Available in satin striped or plain contract white, *textile samples illustrated left*.

Benefits of antibacterial & antifungi protection.

- ✓ Curtain remains fresh, hygienic & odour free.
- ✓ Prolongs the shower curtains life.
- ✓ Inhibits the growth of bacteria & fungi.

**CAPTIVE CURTAIN SYSTEM**

- Eliminates preventable water leaks via the shower curtain wall gap.
- By adding a seam to one edge of our curtain range they can be locked in position keeping over sprayed water in the showering area.
- Advantageous in high use situations or if a window or vent encroaches into the shower area.
- Easily removed for washing. Slide the curtain out of the captive section and remove the rubber seam insert, *see left*.
- Use with any size satin striped or plain white contract curtain.

		SATIN STRIPED CURTAINS	PLAIN CONTRACT CURTAINS
Width	Drop	Reference	Reference
1800mm	1400mm	01SS-1814AB	-
1800mm	1800mm	01SS-1818AB	-
1800mm	2000mm	01SS-1820AB	01SW-1820AB
2130mm	2130mm	01SS-2121AB	01SW-2121AB
2500mm	2000mm	01SS-2520AB	01SW-2520AB

Captive Curtain System, supplied with tray & doors	01CC01
Captive Curtain System, supplied separately	01CC02

PLEASE NOTE: Curtain sizes are approximate as there may be some slight size variation during the manufacture process.

Captive curtain profile eliminates leaks between the wall & shower curtain.
